The diagram illustrates the assembly of a long, thin structure using red and grey blocks. The structure is composed of a series of red blocks connected by grey rings. A legend in the top left corner indicates that the brown block is required 1x and the grey ring is required 2x. The assembly is shown in a perspective view, with the red blocks forming the main body and the grey rings connecting them. The brown block is shown being added to the end of the assembly, and the grey ring is shown being added to the end of the assembly.
